

Invitation

Teacher Training Day

The workshops will take place in cooperation with the Bildungszentrum Nürnberg

On **Saturday, 1st February 2020**

At **Bildungszentrum Nürnberg, Gewerbemuseumsplatz 2,
90403 Nürnberg, Room 3.11**

12:00 – 13:30

Getting our learners to speak

In this hands-on session we will have a look at ideas for turning quiet learners into happily chatting groups. We will analyse reasons for silent classrooms – embarrassment, lack of confidence, motivation, perfectionism – and find some remedies, from turning grammar drills into speaking activities, practising dialogues, reducing teacher talking time, encouraging mistakes, to rearranging the furniture, playing background music, speed dating and eating chocolate to boost endorphins.

Lunch break and book display 13:30 – 14:00

14:00 – 15:30

Are you listening?

With 45 % of all time spent communicating, listening is our most frequently used communicative skill. How can we practise listening in class? What different kinds of listening are there? Can I use the same dialogue on different levels? In this workshop we will have a closer look at listening activities with lots of tips for your next lesson. Join us for a lively workshop and bring along your own ideas to share! Examples will be taken from Hueber's course books *Go for it!* (Starter, A1, A2, B1, B2) and *At your leisure* (A1, A2, B1).

Speaker for both Workshops: **Brigitte Köper**

Please register by **Monday 27th January** by e-mail or via our website
